

Just imagine when every dog or cat is spayed/neutered, there will be no more puppies or kittens. When shelters import animals, your pets are at risk for **dreaded diseases.** When people who dedicated their lives to the health and welfare of animals are vilified, animals suffer. Species disappear. **Responsible Breeders fight for YOUR right to own domestic pets!** Responsible Breeders are NOT the enemy. They are the guardians of species. **It is time to understand and reject the Animal Rights agenda.**
If not, your next pet may not exist.....
